

RegnovaAI Compliance Risk Report

File Audited: Demo_Document.pdf

Risk Summary:

High: 1 Medium: 1 Low: 1

#	Issue	Risk Level	Explanation	Suggestion
1	Missing Encryption Policy	High	The document lacks guidelines for encrypting data at rest and in transit.	Add a section detailing mandatory encryption practices.
2	Weak Password Requirements	Medium	Password complexity rules are not strong enough.	Set minimum password length and complexity rules.
3	Outdated Incident Response Plan	Low	Incident response procedures reference old regulations.	Update IRP to align with modern compliance needs.
